GOVERNMENT ARTS AND SCIENCE COLLEGE, THITTAGUDI

Bachelor of Computer Applications (BCA) — III Year Project Report

STUDENT ENROLLMENT & COURSE MANAGEMENT SYSTEM

ABSTRACT

A web-based system to digitize student admission, course allocation, and academic record management, replacing manual paper-based enrollment with a centralized, secure platform for administrators, faculty, and students.

OBJECTIVES

- Online student registration & enrollment
- Course allocation, scheduling & faculty assignment
- Accurate, retrievable academic records
- Role-based access for admin, faculty & students

MODULES

- Admin Module • Student Module • Course Management Module • Login & Authentication • Report Generation

TECHNOLOGY STACK

- Front-End: HTML, CSS, JavaScript | Back-End: PHP / Python | Database: MySQL | Tools: VS Code, XAMPP

TEAM

Name	Role	Responsibility
T. Thirukalai	Team Leader	Coordination, integration, database design
A. Anusuya	Team Member	Front-end design & UI development
K. Rajeswari	Team Member	Back-end development & coding
M. Kamaleshwari	Team Member	Testing, debugging & documentation
K. Sivabharathi	Team Member	Database management & reports

THANK YOU
